ATTN: FCC Docket 92-235  
Federal Communications Commission  
1919 M. Street, N.W.  
Washington, D.C. 20554

To Whom it May Concern:

We are writing this letter in regards to the new regulation that would limit radio frequencies available for two-way communications, and limit the power of the base station.

We do not feel that we could afford the enormous cost it would take to replace the equipment. We also understand according to NACE, the industry does not currently manufacture equipment capable of meeting the proposed regulations.

Therefore, we would like to ask you to reconsider your proposal on the regulation because we feel it would be disastrous for county government.
